

**Simple. Seamless. Fast.** Integrated within your c-Systems software, ChargeItPro payment processing makes it easy to process payments directly from your invoice screen.

STRATEGIC PARTNERS:

ChargeItPro has taken the stress out of accepting credit cards. Since switching to ChargeItPro, I no longer have errors and confusion when processing a card! In the rare instance I do have a problem, I simply email or call and get immediate assistance (no message, no call back). I would recommend ChargeItPro to anyone.

- J. D. Vick, Tempe Power Equipment

Our company has benefited from working with ChargeItPro due to their great care for customers. The pricing is very competitive and customer service outstanding. They have also been able to offer additional services that our previous credit card processor was unable to complete for us, such as gift cards, debit card processing and signature capture for our in-house customers. Less paperwork to hold onto is a rewarding benefit. ChargeItPro integrates with C Systems – Infinity very well.

- Sara Leonard, Stark Street
